2023　　　2020　　　2018

FTC is a biannual conference held at IIT Delhi, New Delhi, that brings leading scientists, researchers, designers, and the textile and apparel industry together, to enable exchanges on latest scientific findings, design developments, cutting edge technologies, innovations, trends, concerns, challenges, and opportunities in the field of Functional Textiles and Clothing. Three editions of FTC have been held in 2018, 2020 and 2023, each of which saw participation from nearly 80 universities across the world. Held only in the physical mode, FTC has proven to be a melting pot of ideas that provides fertile ground for networking between all stakeholders.

The last edition, held in February 2023, welcomed over 225 delegates from 20 countries who presented nearly150 research papers on a wide spectrum of topics. The conference attracted the support of the National Technical Textile Mission of the Ministry of Textiles, Government of India.

FTC is organised by IIT Delhi, a technology institute, in association with the World University of Design, a Design University to bring out the synergies between the fields of Technology & Design. IIT Delhi, the host institution is ranked #1 engineering institution of India. Its Department of Textile and Fibre Engineering is a leader in Textile Education & Research in the country. The World University of Design, Haryana, is India's premier design university.
